Thoughtfully Curated Colors

The Everlast siding color palette offers a variety of colors, including dark hues and timeless classics.

Low Maintenance

With Everlast siding, caulking and painting, a timely and costly recurring maintenance, is a thing of the past.

All-Weather Durability

Everlast is made from a proprietary mineral-enriched composite substrate that is unaffected by moisture.

Durable Fade-Resistant Finish

Everlast siding's 100% acrylic surface guards against excessive fading, even in the sunniest locations.

Insect-Resistant

Wood and engineered wood siding is vulnerable to insects. Everlast siding's all inorganic composition eliminates this problem.

Sustainable

Everlast siding eliminates VOC-laden products. No trees are harvested to manufacture Everlast siding and the siding is recyclable.

Peace of Mind

With Everlast siding, homeowners receive the industry's best transferable limited lifetime warranty that includes fade protection.
